# WHAT MAKES A HOME?

A home is a collection of memories.  
It's a form of self-expression.  
It's who you are.

To show you who Olapic really is, we invite you to see where we live. We understand how much pride your customers take in their homes, because we take just as much in ours. And we hope that showing you our own, unique spaces will demonstrate why real images can help make real connections with your audience.

## BRAND STRATEGIST

London, United Kingdom

Our living room is not only the center of our home, it's the center of our lives. The open plan connects it with the kitchen, bedroom and dining area... And because life gets crazy, we kept the space minimalistic - whites, woods and some plants for color!

**SENIOR CREATIVE DIRECTOR**

New York City, United States

I love that everything in my dining room has a place, a purpose and a story, from the fairy lights to the Indonesian cupboard I bought at a garage sale.

What makes it special is that my home reflects my family's history just as much, if not more, than my own personal style.

## ACCOUNT MANAGER

London, United Kingdom

My boyfriend built the bedside lamp himself, and we bought the rest of our bedroom furniture to complement it. While our room is small, we think the unique touches make it perfect. It's not about having a big space, it's about making the best of what you have.

**DIRECTOR OF BUSINESS DEVELOPMENT**

London, United Kingdom

Our breakfast bar makes it easy for my girlfriend and I to spend time together without the formality of a sit-down meal - something that makes sense for our lifestyle.

Our home is open, and we love having the space to breathe combined with beautiful London views.

**CHIEF MARKETING OFFICER**

New York City, United States

To me, my bathroom embodies relaxation. My architect, Maria Elena MacGregor Sevilla, included lots of soft, approachable pieces to complement the room's sharp angles like the stone sink, off-white candles, and of course, the gorgeous freestanding tub.

**LEAD ANIMATOR**

My colorful study has all the things I couldn't live without: Markers, notebooks, a sturdy lamp, my art fair flip book, dinosaur erasers, and the wooden box my mom brought me from Cuba. There are many spaces in my house, but my desk is where I feel most at home.

**BACKEND ENGINEER**

Córdoba, Argentina

While this is my grandfather's home, I used to come here almost everyday after school to sit with him on the patio.

We used to pretend we lived in the jungle and play hide and seek behind the plants.
